Overview

Business Performance: Revenue grew from \$2.26M in 2011 to \$4.30M in 2014, while Profit increased from \$248.9K to \$504.2K → The company is in a healthy expansion phase.

Margin Alert: Profit Margin peaked at 11.95% in 2013 but declined to 11.73% in 2014 → Future growth should prioritize profit quality, not revenue volume alone.

Category Direction: Technology is the strongest category with \$4.74M Revenue, \$663.8K Profit, and 14.0% Margin. Furniture has similar scale (\$4.11M Revenue) but much weaker margin (6.9%) → Control Furniture expansion.

Market

APAC & EU: Core markets with the largest profit contribution — APAC: \$3.59M Revenue, \$436.0K Profit; EU: \$2.94M Revenue, \$372.8K Profit → Continue investing, but focus on Phones, Copiers, Appliances, and Bookcases.

Canada: Small revenue base but highest margin — \$66.9K Revenue, \$17.8K Profit, 26.6% Margin → Test controlled expansion with Storage, Phones, Copiers, Appliances, and Accessories.

US & LATAM: Strong revenue but margin needs improvement — US: \$2.30M Revenue, 12.5% Margin; LATAM: \$2.16M Revenue, 10.2% Margin → Shift focus away from Tables toward Phones, Copiers, Accessories, Appliances, and Storage.

EMEA: Weakest profitability — \$806.2K Revenue, \$43.9K Profit, 5.4% Margin → Maintain presence only; avoid major expansion until margin improves.

Product

Phones: Largest sub-category by Revenue — \$1.71M Revenue, \$216.7K Profit, 12.7% Margin → Use Phones to scale sales in APAC, EU, US, and LATAM.

Copiers: Highest profit contributor — \$1.51M Revenue, \$258.6K Profit, 17.1% Margin → Prioritize Copiers in campaigns, inventory, and B2B targeting.

Tables: Main product risk — \$757.0K Revenue but -\$64.1K Profit, -8.5% Margin. Losses appear in APAC (-\$20.1K), EU (-\$21.0K), US (-\$17.7K), and LATAM (-\$12.3K) → Stop aggressive promotion and review cost, discount, pricing, and logistics.

Furniture: Do not scale as a whole category → Only scale profitable sub-categories such as Bookcases (\$161.9K Profit) and Chairs (\$140.4K Profit).

Strategic Priorities

1. Scale APAC & EU with Phones, Copiers, Appliances, and Bookcases.
2. Pilot Canada with selected high-margin products before full expansion.
3. Move US & LATAM away from Tables toward profitable Technology products.
4. Keep EMEA low-investment until margin improves.
5. Make Phones & Copiers the strategic product focus for the next growth phase.
